

Novel influenza A(H1N1), Worldwide

Situation up to 24nd of June 2009 at 11:00 AM

Worldwide epidemiological situation

- The epidemic is still spreading in all continents (more than 56 000 cases in total)
- New countries have reported their first cases: **Cape Verde, Indonesia, Iran and Latvia.**
- Among EpiSouth countries: **Montenegro and Tunisia.**

France

- To date, **191 confirmed cases** were reported, including 1 in French Polynesia, 2 in Martinique and 1 in Saint-Martin (French departments of America).
- 148 were imported: 89 from USA, 13 from Mexico 15 from Canada, 11 from United-Kingdom, 8 from Dominican Republic, 8 from Argentina, 1 from Chile, 1 from Australia, 1 from Sint Marteen and 1 from Philippines.
- 27 are secondary cases linked to imported cases.
- A cluster of 16 cases with no travel history is located in Haute –Garonne (South-West of France): still under investigation.
- 9 clusters are linked to cases with travel history.
- 171 suspected cases are under investigation. <http://www.invs.sante.fr/>

International Situation

Table 1: Number of confirmed A(H1N1) novel influenza up to 24/06/09, 11:00 am*

| Country | A(H1N1) confirmed cases | | Community transmission** | Available data on locally infected cases (CSI and CSL) and on exported cases from countries without confirmed community transmission. CSI = Secondary case linked to an imported case CSL = Secondary case no linked to an imported case |
|---------------------------------|-------------------------|----------|--------------------------|--|
| | Total | Death | | |
| EPISOUTH COUNTRIES | | | | |
| Algeria | 2 | 0 | | |
| Bulgaria | 7 | 0 | | |
| Croatia | 1 | 0 | | |
| Cyprus | 5 | 0 | | |
| Egypt | 41 | 0 | | |
| France (Metropolitan) | 187 | 0 | | See comments above. |
| Greece | 66 | 0 | | |
| Israel | 346 | 0 | | 2/3 of cases are imported, 1/3 of cases are secondary, 1 school cluster |
| Italy | 96 | 0 | | 4 CSI, 7 school clusters, 1 back from cruise in Croatia |
| Jordan | 15 | 0 | | |
