

TAMPEP 8

December 2007 – November 2009

A Network of community-based service providers, public health and social services cooperating in 26 European countries.

Main Objective

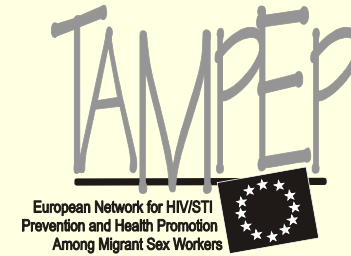

To reduce HIV vulnerability of migrant and mobile sex workers across Europe.

Specific Objectives

- Develop targeted HIV/STI prevention measures.
- Assess and analyse the situation of prostitution in Europe.
- Identify risk factors.
- Facilitate the sharing of knowledge.
- Consolidate the network of 25 countries in Europe.
- Promote human rights and equality in public health policies and accessibility for migrant and mobile sex workers.

TAMPEP 8 PROGRAMME

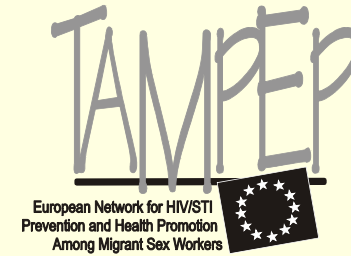

Methods

- Simultaneous activities carried out on national levels with pan-European methodologies.
- Combination of community-based research, targeted intervention, and advocacy, with the direct participation of sex workers.

TAMPEP 8 PROGRAMME

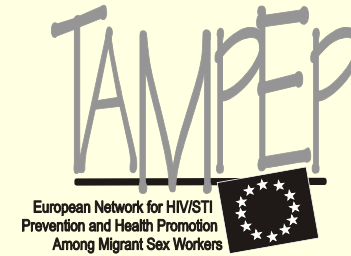

Outcomes

- To strength a pan-European response to legal, health and social care needs.
- To strength the capacities of service providers and community based organisations.
- An updated assessment of the prostitution scene.
- An updated assessment of the legal framework.
- An updated assessment of HIV/STI prevention.
- To exchange experiences and skills: a *European Good Practice Manual*
- To strength referral routes: an online directory of quality services across 26 European countries.
- To exchange experiences and skills on interventions in cross border settings.

TAMPEP 8 PROGRAMME

Call for action

- To develop a holistic, coordinated and integrated approach to sex work and migration.
- To develop a national referral mechanism.
- To create broad national platforms.
- To create a monitoring system on the impact of policies.
- To strength the Network.
- To ensure universal access to health, and the right of migrants and ethnic minorities to HIV/STI prevention, treatment and care.
