# Migration and Health

- **If equal health opportunities are to be guaranteed for all, health promotion strategies must include solutions specifically geared to migrants and they must be implemented in collaboration with them.**

Mit Migranten für Migranten  
Interkulturelle Gesundheit in Deutschland

•MiMi aims  
to empower migrants through  
participative processes.  
to design, conduct and self-evaluate  
community based prevention  
campaigns in a transcultural team of  
mediators.

The programme does not see migrants  
as victims of their situation but as  
experts in their own cause who have  
often developed positive coping  
strategies and resources from their  
personal history,  
of which ideal  
use could be made.

# The MiMi - programme

- **Migrants with a high social index inform migrants with a low social index about health promotion and prevention and motivate them to live healthier and make better use of the health system**
- **MiMi started in 2003**

# AIDS-related Health Literacy Issues of Migrants in Europe

- Low levels of knowledge (theoretical, rights)
- High levels of discrimination (internal/external)
- Dual(+) marginalization of People with HIV/AIDS
- Lack of self-organization of interests
- Language barriers
- Barriers in health and social systems
- Lack of targeted funding for community-based health education
