## The EpiSouth Network

Starting as an EU project, the EpiSouth Network struggled to develop its Mediterranean vocation. From an initial involvement of 5 countries (Italy, Spain, France, Greece, and Bulgaria), it finally includes ALL the Mediterranean countries (27 countries from Southern Europe, Balkans, Middle East, and Northern Africa) and partners from collaborating institutions.

EpiSouth Project has been closed in June 2010 but the network activities will continue in 2010-2013 through a new EU-funded Project called "EpiSouth Plus"

## Focus Topic

FAO, OIE and WHO published a tripartite concept note on their collaboration for sharing responsibilities and coordinating global activities to address health risks at the animal-human-ecosystems interfaces.
